

Forecast For Scotland
Issued by Met Office Aberdeen
at 1600 on Wednesday 21 Jul 2021

++ Valid for broadcast between 1800 and 0600

Headline:

Hot in west. Low cloud burning back to east coast.

This Evening and Tonight:

Western areas will be dry, mostly clear and rather warm. Low cloud and mist becoming widespread across the east, including the Northern Isles, drifting through the Central Belt towards Glasgow by dawn.

Thursday:

Low cloud and mist burning back to North Sea coasts. Then most areas having a dry, sunny and very warm day, becoming hot in the west. Northern Isles remaining dull.

Outlook for Friday to Sunday:

Staying mostly dry with plenty of sunshine. Some overnight low cloud, this burning back to the east coast in the mornings. Hot at first across the west, cooler in east.
